Document # 14705 to cancel OPEB (health insurance benefits) and Life Insurance for all
salaried retirees.

Dear Judge Drain:

Please accept this letter as my official **objection** to the motion filed by Delphi
Corporation on February 4, 2009 (ref. Document 14705).

Delphi is a huge global corporation that is viable internationally except in the U.S. The
travesty is that the U.S. Bankruptcy laws allow them to claim bankruptcy without taking
into consideration their viability and profitability in other countries which were fostered
by many of the domestic plants.

The savings projected by Delphi as a result of eliminating healthcare appear to be
overstated. The costs will diminish as people find other jobs or reach age 65.

Most of us worked for GM the majority of our career and were not given a choice as to
whether they stayed with GM or were moved to Delphi. Delphi hourly employees
however were given support from GM.

These salaried folks continued working faithfully for Delphi after the bankruptcy started
based on repeated strong implications that healthcare and retirement would be
maintained. For these employees benefits had taken them a lifetime to vest. Unlike other
stakeholders, such as investors and suppliers, they will have no "second chance"
opportunity when (and if) Delphi emerges from bankruptcy. Had we known, we would
have left the company earlier while competitive jobs were available outside Delphi.

It appears that Delphi management and their legal team has specifically targeted the
Salaried Retirees, in lieu of others, because of their apparent vulnerability. Allowing this
to happen may create a small short term relief for Delphi, but it creates a society that is
hurt, untrusting, and cynical. I don't think this was the intent of our forefathers.

Many retirees who will be negatively impacted by this action are looking to you for your consideration when making the decision concerning Document #14705 dated February 4, 2009.

Please REJECT this motion.

Sincerely,

John A Walterbusch
